Kum Brian Ihimbru

FULL-STACK APPLICATION DEVELOPER

Cameroon | kumbrian.vercel.app | github.com/KumBrian

PROFESSIONAL SUMMARY

Application developer experienced in building mobile apps, enterprise web interfaces and backend services across environmental technology, fisheries commerce, HR, payments and trading. Hands-on with React Native/Expo, Flutter, Kotlin, Nuxt.js, Next.js and Java/Spring Boot.

PROFESSIONAL EXPERIENCE

Application Developer | DHI | December 2025 – Present

- Developed enterprise web features across HR, merchant-account and administrative workflows with Nuxt.js.
- Built a Java/Spring Boot collections and contributions microservice supporting group contributions, anonymous collections, subscriptions and invoice/document generation.
- Implemented Kotlin mobile trading experiences and chart-linked chat functionality for market discussion and trade planning.

Software Development Intern | DHI | April 2025 – November 2025

- Developed React Native/Expo features for an air-quality app with localized AQI, health guidance and articles.
- Built Flutter fisheries-marketplace features for catch listings, bidding/counter-offers and buyer–seller messaging.

SELECTED PROFESSIONAL PROJECTS

CCA Pay — Built merchant/admin interfaces and a Spring Boot collections and contributions microservice.

Fluxoon — Developed HR administration and employee self-service interfaces across workforce workflows.

Easy Trade — Developed Kotlin trading interfaces and chart-linked chat for market discussion and trade planning.

Siren — Built catch listings, bid negotiation and buyer–seller messaging flows in Flutter.

Henddu — Implemented location-aware AQI viewing, environmental data presentation and guidance experiences.

INDEPENDENT CLIENT WORK

RuralNexus (ruralnexus.org) — Built the public website and structured content around the organization’s mission, programs and resources. Nuxt.js, PostgreSQL, Supabase, Render.

MUMA Solution (mumasolution.com) — Built the consultancy website with managed article publishing and team profiles. Next.js, Payload CMS.

TECHNICAL SKILLS

Mobile: React Native, Expo, Flutter, Kotlin | **Frontend**: Nuxt.js, Next.js | **Backend**: Java, Spring Boot | **Data & CMS**: PostgreSQL, Supabase, Payload CMS | **Deployment**: Render

EDUCATION

BSc Computer Science | University of Buea | Cameroon
